

DEL CITY TARIFF AFFECTED ITEMS

Recent global trade policy shifts, including a wave of newly imposed tariffs, have significantly impacted supply chains. Del City has been working diligently with our suppliers and networks to identify opportunities to remove or reduce the financial impact on our products. Unfortunately, there is only so much we can do to mitigate this new expense. We regrettably must charge our customers a portion of these tariff fees on all affected products so we can continue to provide you our full selection and excellent service you have come to expect. A 75% fee will be added to imports from China at the time of checkout. Pricing on individual items will not be affected as a result of this fee, so you may continue ordering products at current prices. Below is the list of products that will be affected by these tariffs. These tariffs are subject to change.
